

Pricing

The majority of our clients require simple imaging on a seamless white background as shown here. This style of image is simple, clean and above all versatile. We use special lighting techniques to achieve natural lighting which preserves the details and adds depth and dimension to your product. This format of imaging is useful in print catalog and for online use. Our simple pricing structure is displayed below.

Single Photo	38.00 per photo
2-5 photos	32.00 per photo
6-19 photos	25.00 per photo
20-50 photos	20.00 per photo
Over 50 photos	Please Call

Creative Product Photography

There are times that photography on a white background doesn't meet the requirements of a project. We offer creative options for those times when your product has to look original and inspired. These images simply may require special lighting and custom backgrounds or can be complex and require specially built sets or involve travel to locations. If these circumstances describe something you desire please call for quotes and suggestions.

For Location Photography

We will travel remotely with cameras, lighting and all necessary equipment. The Daily rate is 650.00 or for less than full day billed at 150.00 per hour.

Options

Masking

Masking of images (separating an image from a background and placing them on a transparent layer.) This aids you in changing the color or style of your background. A PSD format is required and it is helpful to have basic Photoshop experience.

8.00 Per image

Graphic Design, Layout and Web Upload

We can provide graphic and layout design services to assist you with displaying your final images in print. This may include inserting photos into your website and updating pricing or content.

65.00 Per hour
